**Shelving was so yesterday - VS ADD® Board is now**

## Finally space in every room!

*Birmingham, 06/03/2022* – **Optimum functionality has been the top priority at Vauth-Sagel since its foundation. The subject of design has been treated with the same demand for perfection for years. And when it comes to the topic of orderliness, the system manufacturer is always setting new standards again and again. With the VS ADD® Board, a storage system has been developed for the first time that brings orderliness to all areas of everyday life. Here you'll find room for everything you would like to display. And the shelf element itself is a real eye-catcher, because it is attached to the wall invisibly.**

The VS ADD® Board is the universal design shelf for all living areas. Whether it's a framed picture of the family, grandma's sugar bowl or a pepper mill - everything is displayed visibly and in an orderly fashion. "For us, the focus is on people and their preferences," is how Managing Director Claus Sagel sums up Vauth-Sagel's activities. "Our products combine functionality, design and comfort. The VS ADD® Board system directly represents these qualities." Additionally, there are the high design and quality requirements that the family business has for all its developments.
And it goes one step further: the VS ADD® Box and the VS ADD® Separator, in perfectly coordinated design, ensure orderliness in this practical tray. The powder-coated sheet steel and the reduced design language make the three organisational elements a real dream combination. Conclusion: Everything's on Bo(a)rd. No matter where.

*VAUTH-SAGEL:*

*Contemporary and innovative storage solutions. This is the essence of what Vauth-Sagel has stood for for 60 years. The owner-managed family company focuses on people's desire for the highest-possible level of comfort in all of its system components. The competence areas of development, production and sales are geared towards this - day after day. The core competencies in the kitchen and furniture industry have long since been transferred to modern living components. And that motivates the more than 1,000 employees to produce more than 85 million products with the quality mark "Made in Germany" every year. In addition to many years of cross-material expertise, there are other features that ensure that Vauth-Sagel's global customers are that decisive step ahead: "Creating high-quality system solutions for living spaces. And doing that for everyone" - this promise is based on forward-looking impulses in product design and equipment. That is what Vauth-Sagel is all about!*
