Space for everything. Room for more.

Organisation for base and tall units: up to the higher level

Birmingham, 06/03/2022 – **Behind many a cabinet door hides hopeless chaos. The saying: "Anyone who keeps things tidy is just too lazy to search" falls on deaf ears with the space experts at Vauth-Sagel. Because they know that budget is first and foremost in the question of organisation. Both in the kitchen and in the utility room, VS ADD® Flex enables customised solutions for typical storage space needs around the stove, oven, sink or washing machine. Regardless of the purpose, the entire contents of the cabinet are clearly organised and can be reached with only a single hand movement.**

The sense of orderliness is an integral part of the Vauth-Sagel design DNA. And time and again, the system experts manage to redefine this claim. “In our developments, we are increasingly focusing on functional solutions and multifunctional modular systems that can be individually adapted to the respective work processes. VS ADD® Flex is a prime example of this,"
says Vauth-Sagel Managing Director Claus Sagel.
With the flexible modular solution VS ADD® Flex, Vauth-Sagel brings orderliness to interior spaces. The individual inserts can be combined to form individually-themed sets as required, turning the new VS SUB® Larder base unit pull-out or its big brother for the tall unit, the VS TAL® Larder, into a storage solution perfectly adapted to its surroundings. With this, Vauth-Sagel once again shows that the company's product developers always go one step further. The direction is clear: Level up!

VAUTH-SAGEL:

Contemporary and innovative storage solutions. This is the essence of what Vauth-Sagel has stood for for 60 years. The owner-managed family company focuses on people's desire for the highest-possible level of comfort in all of its system components. The competence areas of development, production and sales are geared towards this - day after day. The core competencies in the kitchen and furniture industry have long since been transferred to modern living components. And that motivates the more than 1,000 employees to produce more than 85 million products with the quality mark "Made in Germany" every year. In addition to many years of cross-material expertise, there are other features that ensure that Vauth-Sagel's global customers are that decisive step ahead: "Creating high-quality system solutions for
