Premium Storage Solutions Made in Germany

Incomparable functionality, precision and durability: Vauth-Sagel at KBB 2024

Birmingham, March 3, 2024. **Vauth-Sagel, the esteemed German pioneer in premium storage solutions, is poised to captivate attendees at the KBB 2024 in Birmingham from March 3rd-6th. As a part of Europe's leading kitchen, bedroom and bathroom event, Vauth-Sagel will proudly present its latest advancements, highlighting a seamless blend of high-quality craftsmanship, sustainability, and cutting-edge design.**

Vauth-Sagel, synonymous with high-quality craftsmanship, will unveil its latest collection of premium storage solutions, meticulously designed and manufactured in Germany. These products epitomise precision, durability, and unparalleled functionality.

Sustainable Booth Concept

Embracing a commitment to environmental responsibility, Vauth-Sagel introduces a booth concept that echoes its dedication to sustainability. Fifty percent of the booth materials have been repurposed from the Interzum 2023 exhibition, showcasing the company's proactive approach to minimizing its ecological footprint. To underline this commitment, Vauth-Sagel invites every visitor to join its sustainability efforts. For each attendee who registers at the Vauth-Sagel stand, a tree will be planted as part of the Plant for the Planet initiative.

Innovative Platinum Colour Surface

As part of its sustainability strategy, Vauth-Sagel is gradually changing from a Chrome finish to a more environmentally friendly Platinum surface, thereby expanding its decades of surface expertise. This innovative powder-coated, Platinum coloured, surface - which closely resembles the look of chrome - has already been firmly incorporated into the Vauth-Sagel portfolio. At the KBB, Platinum is an integral part of the trade fair stand and will be showcased on several products including the VS Larder Tray.

VS WASH® Laundry System

The VS WASH® series – an integrated laundry collection hidden behind a cupboard door – debuts this year. This innovative solution harmoniously combines functionality with elegant design and offers an efficient and discreet laundry management system.

MEDIA INFORMATION

Essentio® – Pure steel. Pure style.

This Vauth-Sagel variant impresses with its puristic design. The Essentio® collection is characterised by a monochrome aesthetic, made entirely from high-quality, folded sheet steel. The clear, distinctive design gives the interior of every cupboard a timeless elegance. The closed storage elements of the Essentio® line are deliberately reduced to the essentials in order to create a minimalist and tidy appearance. The high-quality workmanship and well-thought-out design make Essentio® a perfect choice for both the modern kitchen and stylish utility room.

Essentio® will be available during in 2024.

VS TOP® Down – Unreasonable becomes manageable

VS TOP® Down represents a real highlight – the drop-down fitting for wall units has meanwhile received the Golden Award – Best of the Best in the kitchen furniture and equipment category from the Kitchen Innovation Award. This award honours the outstanding functionality, innovation, product benefits, design and ergonomics of the unique hinge concept by Vauth-Sagel. It allows wall units to become easily accessible, giving access to space that has previously been difficult to reach. Ergonomic advantages are not its only impressive feature: the lowering mechanism also boasts an eye-catching design. The VS TOP® Down is expected to be available from summer 2025.

Innovative Organisational Accessories

Explore the VS ADD® series. With its VS ADD® Box, Vauth-Sagel has revolutionised storage in all areas of life. Interaction has been perfected in the form of the VS ADD® Board. The design harmonises perfectly with the dimensions of VS ADD® Boxes, utilising up to 100% of the existing space. The VS ADD® Separator enables custom division of objects in Essentio and Planero® design compartments, offering unlimited possibilities in kitchen and housekeeping areas.

Perfectly coordinated: The new VS SUB® Larder and VS Larder Flex Modules

Modular systems have always been one of Vauth-Sagel's core competencies. Perfect coordination is achieved when the best individual components interlock, interact and the environment where the components are used – whether next to the refrigerator, the washing machine or the cooker – is taken into consideration. The new VS SUB® Larder and VS Larder Flex Modules, in combination with the tried-and-tested VS TAL® Larder tall cabinet pull-out, form a modular system for more individuality and customised solutions in tall and base units. The result: better overview, comfort, flexibility and order, with style in both kitchen and utility areas.

Creating more than 1000 new possibilities with only a few components: this is achieved by extending the existing VS TAL® Gate assembly to include the VS Gate Rack and VS Gate Rack Plus. The new elements now offer more scope for individual solutions – inside cabinets and beyond. As with the modular VS Larder system, the modular VS

Gate system can also be supplemented with the VS ADD® boxes and VS ADD® separator for customised storage space solutions.

VS ENVI® Water – Waste collection system and water storage together!

In response to the growing demand for space-saving solutions in kitchens, VS ENVI® Water offers a groundbreaking solution. With the popularity of water treatment systems like the Quooker on the rise, homeowners face the challenge of limited space, especially when it comes to housing waste collection systems. VS ENVI® Water provides the perfect answer, allowing for the seamless integration of waste collection and water storage. Within a 600mm-wide cupboard, this combined solution requires just a 470mm unit depth, ensuring efficient organisation of hoses and cables for a tidy setup. Whether it's a Quooker Cube cold water or a Pro3 boiling water storage tank, VS ENVI® Water accommodates either to the right or left of a 22-litre waste container or two 10-litre containers. Installation is quick and straightforward, with the flexibility to adapt to various circumstances. Optional extension hoses can be used to set up and connect the Quooker system in front of the unit. VS ENVI® Water is securely attached to the side wall and underbody, ensuring stability and safety. Like all VS ENVI® space systems, this variant features a metal cover plate and smooth sliding technology. With VS ENVI® Water, Vauth-Sagel presents an ingenious solution for maximising space in sink base units.

Free rein for waste sorting - VS ENVI® Free has been upgraded

The upgraded VS ENVI® Free system now features a plastic bin holder for the individual bins, upgrading the previous setup where the bins were simply inserted into a drawer with an anti-slip mat. This new VS ENVI® Free Tray bin holder makes using the VS ENVI® bins within a drawer more convenient. The bin holder is simply inserted into the existing drawer and the bins are placed in the slots provided. With the bin holder, the bins remain in place even when the drawer is opened and closed suddenly. The drawer itself remains clean and the removable tray is easy to clean. An additional slot can be used to store bin liners or cleaning materials. All bins can also be used to store cleaning utensils or petfood, or as cleaning buckets. Each bin can also be fitted with a lid, and an organic waste lid is also available for the 6-liter bin.

Don't miss the opportunity to experience the future of premium storage solutions at the Vauth-Sagel booth during KBB 2024. Visit us at booth S70 to witness firsthand the fusion of German craftsmanship, sustainability, and cutting-edge design.

VAUTH-SAGEL:

Contemporary, innovative storage solutions. This has been the core business of Vauth-Sagel for over 60 years. When it comes to all of its system components, the owner-operated family company focuses on people's desire for as much convenience as possible. The development, production and sales divisions are led by this desire – every day. The company transferred its core expertise in the kitchen and furniture industry to modern living components long ago. This motivates its 1,000 employees to manufacture over 85 million products with the “Made in Germany” quality hallmark every year. Alongside many years of expertise in a wide range of materials, other characteristics ensure that Vauth-Sagel customers worldwide are a decisive step ahead: “Creating high-quality system solutions for living spaces. For all people” – this promise is based on pioneering ideas for product design and features. This is Vauth-Sagel!
