### **Pantry Pull-Outs for Systematic Organization!**

*Las Vegas, February 27, 2024.* **Recognizing the kitchen as one of the most crucial spaces in the home, Vauth-Sagel focuses not only on functionality but also on aesthetic appeal. That's precisely why Vauth-Sagel has developed a range of solutions that align with current trends in kitchen design, ensuring they meet the demands of modern kitchens and utility rooms. The new VS SUB® Pantry and VS Pantry Flex modules, combined with the proven VS TAL® Pantry tall cabinet pull-out, create a modular system for more individuality and customized solutions in both tall and base units. The result? Increased overview, convenience, flexibility, and organization for stylish kitchen and utility areas.**

"We love modular systems that combine the very best individual components for seamless functionality," enthuses CEO Claus Sagel. "This is why we have paid special attention to where the components will be used, whether that's next to the refrigerator, the washing machine, or the cooker. Everything has been factored into perfection."

The VS SUB® Pantry is the base cabinet pull-out model, the lower version of the tried-and-tested VS TAL® Pantry. What's extra practical is that the shelves of the VS SUB® Pantry are compatible with those of the VS TAL® Pantry.

The bottom level is always a shelf element, and from the second level up, it can be equipped with modules from the VS Pantry Flex modular system and accessed from both sides to fulfill a range of functions. Its sleek dimensions allow it to fit into any kitchen unit, and it is even available in various sizes and colors.

The tall cabinet pull-out creates additional storage space for groceries, kitchen utensils, or even laundry and cleaning supplies in the utility room thanks to its ideal dimensions and features. In fact, this is where the VS Pantry Flex elements really come into their own, offering diverse possibilities for maximizing space utilization, organization, and flexibility in an individual design. Another real highlight is that the shelves in both the VS TAL® Pantry and VS SUB® Pantry have identical dimensions. This means both can be equipped with the same shelf variations and with baskets and shelves from all design collections: Planero®, Scalea, Saphir, and Ligano.

The star of the show for both pull-out systems is the VS Pantry Flex modular system. Continually refined by the Vauth-Sagel product developers, this system comprises various modular elements that can be flexibly combined for design possibilities that can

## MEDIA INFORMATION

be adjusted and utilized for (almost) every need. What's more, it is even possible to add elements or replace them at a later stage. Notable examples include:

- VS Pantry Flex Clip: This allows the VS Pantry Flex inserts to be attached at the desired height without the need for tools.
- VS Pantry Flex Hook: The hook rack offers organised hanging storage for cloths, towels, cooking utensils, or even brushes and shovels.
- VS Pantry Flex Roll: This holder ensures that kitchen rolls are stored invisibly yet always within reach.
- VS ADD® Boxes: The VS Pantry Flex modules can be complemented by the flexible box system.

All components of the modular system can be individually combined to suit the respective area of use. Alternatively, the option is also available to select pre-configured theme sets. With the VS Pantry modular system, the interior of the cabinet is always organised and easily accessible.

### VAUTH-SAGEL:

*Contemporary, innovative storage solutions. This has been the core business of Vauth-Sagel for over 60 years. When it comes to all of its system components, the owner-operated family company focuses on people's desire for as much convenience as possible. The development, production and sales divisions are guided by this desire – every day. The company transferred its core expertise in the kitchen and furniture industry to modern living components long ago. And this motivates its 1,000 employees to manufacture over 85 million products with the “Made in Germany” quality hallmark every year. Alongside many years of expertise in a wide range of materials, other characteristics ensure that Vauth-Sagel customers worldwide are a decisive step ahead: “Creating high-quality system solutions for living spaces. For all people” – this promise is based on pioneering ideas for product design and features. This is Vauth-Sagel!*
