VS ADD® Frame A: Sophisticated storage where design meets function

Birmingham, 1 March 2026 – Vauth-Sagel introduces the **VS ADD® Frame A** — a sophisticated storage solution that brings together considered design and genuine practicality for modern kitchens, living spaces, and hospitality environments.

Built around a slim yet robust aluminium base frame, the VS ADD® Frame A is designed to adapt. Wire elements accommodate 3 or 6 bottles, while a dedicated glass holder displays up to 8 wine glasses — keeping both beautifully organised and effortlessly on show. The glass-metal construction elevates the system beyond pure function, making it as much a design statement as a storage solution.

Crafted in black anodised aluminium in Vauth-Sagel's *nero* finish — a refined, deep black — the VS ADD® Frame A integrates seamlessly into contemporary kitchens, open-plan living rooms, bars, and restaurant settings alike.

Designed for 600 mm cabinet widths and available in three frame depths (474 mm, 389 mm, and 305 mm), the system offers genuine flexibility for a wide range of furniture configurations. Straightforward assembly and easy adjustability mean installers and homeowners alike can get the most from the system without complication.
