Vauth-Sagel Showcases U.S. Expansion and Product Innovations at KBIS 2026

Ligano and new partnerships highlight the company's growing U.S. footprint

Orlando, February 17, 2026 – Vauth-Sagel will showcase its expanding presence in the U.S. market at KBIS 2026, presenting new partnerships, product innovations, and storage solutions tailored to contemporary kitchen design. Visitors can experience Vauth-Sagel's latest systems at the German Pavilion in the North/South Hall, booth #S27067, while selected products will also be featured at partner Richelieu's booth in the West Hall, booth #W155.

A key milestone at this year's show is the market launch of Vauth-Sagel's expanded distribution partnership with Richelieu, strengthening product availability across the United States. Through Richelieu's nationwide reach, Vauth-Sagel solutions become more accessible to kitchen and cabinet manufacturers, dealers, designers, and woodworking professionals.

In addition to its growing distribution presence, Vauth-Sagel is further strengthening its market visibility through cooperation with U.S. industry expert Eric Marshall, who supports the brand as ambassador, helping connect European innovation with the needs and expectations of the American kitchen market.

Product Highlights at KBIS 2026:

1. Ligano – Wood-Based Storage Designed for America

A central highlight of the Vauth-Sagel booth will be Ligano, the company's wood-based storage program, created exclusively to meet the demands of the U.S. market. Featuring shelves crafted from maple and birch combined with modern metallic accents, Ligano brings together European design influences and American lifestyle preferences, combining natural materials with functional storage solutions for contemporary kitchens.

2. VS WASH® Space – Concealed Laundry Management

This concealed system simplifies laundry management by enabling sorting, storing, and transporting clothes within cabinetry. Perforated hampers improve air circulation, while ergonomic handles allow easy handling, supporting clean and functional cabinet integration.

MEDIA INFORMATION

3. VS SUB® Pantry – Modular Pull-Out Base Cabinet System

This modular pull-out base cabinet system maximizes storage in compact spaces, streamlining workflows and keeping busy kitchens efficiently organized. Available in multiple sizes and finishes, it integrates seamlessly into any kitchen design. Compatibility of the VS SUB® Pantry trays with the VS TAL® Pantry system simplifies inventory management. With flexible configuration options, the system provides an efficient and well-organized storage solution, particularly enhancing functionality in kitchen zones around ovens or washing machines.

4. VS COR® Wheel Pro – Next-Generation Lazy Susan

A next-generation Lazy Susan that eliminates the central standpipe to create uninterrupted storage space for bulky cookware. Its rotating, floating design provides smooth, convenient access to corner cabinets while maximizing usable storage space.

5. VS CORNERSTONE® Maxx – Premium Corner Cabinet Solution

CORNERSTONE® MAXX transforms the corner cabinet into fully accessible storage, bringing the entire cabinet contents smoothly into view without obstructing adjacent cabinets. Widely regarded as the best-kept secret in corner cabinet solutions, the system combines straight pull-out kinematics with power-assisted movement and integrated soft-close damping for effortless, controlled operation.

Its elegant, floating design creates a premium visual impression, while independently moving trays — each supporting up to 25 kg (55 lbs) — provide generous, stable storage even for heavy cookware. Installed in just three steps, CORNERSTONE® MAXX delivers a superior upgrade in convenience, performance, and design for modern kitchens.

A dedicated assembly and demonstration counter will showcase the installation and functionality of the premium corner solution VS CORNERSTONE® Maxx, allowing visitors to experience its practical benefits and ease of integration firsthand.

Alongside these highlights, Vauth-Sagel will present several additional storage solutions and its cabinet suspension brackets VS TOP® Hang.

By presenting its portfolio both within the German Pavilion and through Richelieu's booth presence, Vauth-Sagel underlines its commitment to long-term growth in North America while delivering intelligent storage solutions that enhance everyday comfort and usability.

Visitors are invited to discover Vauth-Sagel's innovations and meet the team at booth #S27067 in the North/South Hall during KBIS 2026 in Orlando.
