Welcome - new storage space

### **VS ADD® Door "creates" more space!**

*Erkeln, 29/04/2021* – How about turning the inside of a cupboard into extra storage space? Ingenious, isn't it? VS ADD® Door does exactly that. Especially for things that are used frequently and need to be stored conveniently within easy reach. The clever add-on shelf makes use of existing, but thus-far mostly unused space on the inside of cupboard doors, on the inside of cupboard walls; but it can also be mounted anywhere else on the wall. VS ADD® Door brings orderliness to all living spaces and can be individually adapted and extended in seconds.

Vauth-Sagel is always about the art of using space. The often poorly-used or unused spaces in a kitchen cupboard, for example, have taken the system experts' fancy. The result is VS ADD® Door, a smart solution that has never been seen before. And it is not only the functionality that sets standards, this innovation also meets the highest requirements in terms of design.

"We always look at design and functionality from the perspective of universal use. What is developed at Vauth-Sagel is designed to make people's lives easier and to meet the highest quality standards - and that applies worldwide," says Vauth-Sagel Managing Director Claus Sagel.

Whether on the inside of a door, on the inside wall of a cupboard or mounted on the wall: VS ADD® Door is fun right away because the system is so easy to assemble and the shelves are flexibly adjustable. The purist slotted shelf made of powder-coated steel conjures up additional, easily accessible storage space in kitchens, utility rooms, bathrooms and living areas. It is a space-saving way to conveniently store everyday items that need to be quickly at hand. No matter where VS ADD® Door is installed – as it is available in heights of 650, 1450 and 1900 mm, it can always find a perfect spot. Currently, it is available in white, elegant silver and modern lava grey. Always perfectly positioned at just the right height. No wonder storage space gurus love this convenient shelving solution!

*VAUTH-SAGEL:*

*Contemporary and innovative storage solutions. This is the essence of what Vauth-Sagel has stood for for more than 55 years. The owner-managed family company focuses on people's desire for the highest-possible level of comfort in all of its system components. The competence areas of development,*

## MEDIA INFORMATION

*production and sales are geared towards this - day after day. The core competencies in the kitchen and furniture industry have long since been transferred to modern living components. And that motivates the more than 1,000 employees to produce more than 85 million products with the quality mark "Made in Germany" every year. In addition to many years of cross-material expertise, there are other features that ensure that Vauth-Sagel's global customers are that decisive step ahead: "Creating high-quality system solutions for living spaces. And doing that for everyone" - this promise is based on forward-looking impulses in product design and equipment. THAT is all Vauth-Sagel systems technology!*
